DISTRIBUTION: TRAFFIC _____ TRANSPORTATION STUDY OFFICE _____

COMMENTS: _____

A hand-drawn map of the Kelly area. At the top, an arrow points right with the letter 'N' above it, indicating North. The map shows several streets: 'Kelly' runs horizontally across the top; 'Shepherd' runs horizontally across the bottom; 'Mackdonald Coste' runs vertically on the right side; 'Lidd Road' runs diagonally from the bottom center towards the right; 'Ms Denial' runs diagonally from the center towards the left; and 'Hackelberg' runs diagonally from the center towards the top right. A hatched rectangular area is located on the 'Kelly' street, between 'Ms Denial' and 'Hackelberg'. Other labels include 'Post' near the intersection of 'Shepherd' and 'Ms Denial', and 'Colwell' near the intersection of 'Lidd Road' and 'Hackelberg'. The word 'Montgarn' is partially visible at the top right edge.

Re: Macdona Heights POADP
File #279

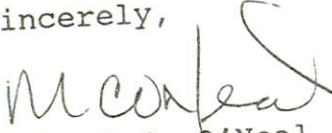

Dear Mr. Pigott:

This is in response to your request to keep the Macdona Heights POADP in a active file status. The POADP shall be maintained in the permanent files of the Director of Planning and shall be conformed to in processing subsequent unit plats. The POADP shall remain valid until all units contained in the POADP are completed or upon receipt of a proposal to modify the POADP filed by the developer. The POADP shall become invalid if a plat is not filed within eighteen (18) months of this date.

With regards to the expiration of the plat of Macdona Hts. Subdivision Unit-2, you may submit a request for a time extension thirty (30) days prior to the expiration of the plat. The request must be accompanied with a filing fee in the amount of \$120.00 and a 8 1/2" X 11" reduction of the plat on regular bond paper. The Planning Commission may approve a time extension from 1 to 3 years. (See Sec. 35-4225 of the Unified Development Code.)

If you have any questions, please contact Roy Ramos or Edward Guzman at 299-7900.

Sincerely,

Michael C. O'Neal, AICP

Mr. Mark Brown, P.E.
Brown Engineering Company
7801 Broadway, Suite 206
San Antonio, Texas 78209

Dear Mark:

Reference is made to the amended Macdona Heights Preliminary Overall Area Development Plan #279. The plan as submitted meets the conditions approved by the Planning Commission at its meeting of March 16, 1988. This will now allow the filing of the plat for Commission consideration. It is noted that the Commission's action was to accept the plan showing the proposed street cross section. This action did not constitute the granting of a variance to the street standards; variances may be granted only in conjunction with consideration of the proposed plat.

Additionally, acceptance of the plan does not confer any vested rights to plats under the existing Unified Development Code. Any platting will have to comply with the regulations in force at the time of platting. In view of this, it will be necessary to submit a variance request at the time of plat filing.

If you have any questions regarding this matter, please call me or Edward Guzman at 299-7900.

Sincerely,

A handwritten signature in cursive script that reads "McNeal".

Reference: Macdona Heights POADP
File #279

Dear Mike,

Enclosed for your records are two (2) copies of the referenced POADP revised to eliminate the stub street adjacent to Lot 53 and 54, Block 1. With these revisions the POADP should be in complete compliance with Planning Commission conditions of approval as granted on March 16, 1988.

Based on that March meeting we understood that the use of the Bexar County street section was approved for the project and no further variances will be required. Your letter dated March 23, 1988 seems to contradict this point. Please note that the requirement for further variances is unnecessary and also unfairly carries the chance of reversal of rights that were granted at the March 16, 1988 meeting.

Please verify that our understanding is correct, or let us know what your thinking is on the issue. If a problem does exist we would appreciate a meeting to discuss the situation together.

Sincerely,

BROWN ENGINEERING CO.

RE: Macdona Heights POADP
File #279

Dear Mr. Brown:

Please be advised that the Planning Commission at its meeting of March 16, 1988 accepted the above referenced plan reflecting the proposed street system to be built to County standards subject to the condition that the stub street be converted to a cul-de-sac street adjacent to Lot 53 & 54, Blk. 1. Therefore, please submit a new plan reflecting this change. Although the Commission has accepted the plan, it will be necessary to request a variance to the street construction standard at the time of plat consideration.

Please note that this action does not establish any commitment for the provision of utilities, services or zoning of any type now or in the future by the City of San Antonio. Additionally, this action does not confer any vested rights to plat under the existing Unified Development Code. Any platting will have to comply with the regulations in force at the time of platting.

If you have any questions, please contact Roy Ramos at 299-7900.

RE: Macdona Heights POADP
File #279

Dear Mr. Brown:

The Development Review Committee has reviewed your proposed plan for Macdona Heights. The plan has been assigned File #279 for future reference.

The staff cannot accept your plan as submitted as it does not meet the requirements for standard streets. The plan proposes 24' pavement widths with a two course surface treatment and 60' ROWs.

The Development Review Committee recommends that the proposed streets be built to the required standards as per the Unified Development Code. You may revise your plan or appeal to the Planning Commission for a final decision by submitting a formal written request to the Director of Planning.

If you have any questions, please contact Roy Ramos at 299-7900.

Sincerely,

CITY PLANNING COMMISSION

MAR 16 1988

PUBLIC NOTICE

ADD-ON NOTICE

In addition to other scheduled items by the Planning Commission at its March 16, 1988 meeting, the Commission will be asked to consider the following item:

1. Consideration of POADP #279, Macdona Heights Subdivision.

*P.C. approved POADP plan
and granted a consensus to
approve street to County standards
3/16/88*

It is necessary that the Commission consider this item at this time in the interest of expediency.

CITY OF SAN ANTONIO

Interdepartment Correspondence Sheet

TO: Planning Commission

FROM: Roland A. Lozano, Director of Planning

COPIES TO: Rebecca Q. Cedillo, Asst. Director of Planning; File

SUBJECT: CONSIDERATION OF POADP #279, MACDONA HEIGHTS SUBDIVISION

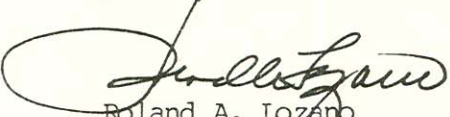

Date March 16, 1988

In accordance with Section 35-2073 of the Unified Development Code, Mr. Mark Brown representing Mr. Ed Pigott is appealing to the Commission for approval of his POADP for Macdona Heights Subdivision. The plan meets all requirements of the subdivision regulations except for street standards. Mr. Pigott is proposing to construct his streets to County rather than City standards.

If the developer does not construct the streets to City standards, the City will inherit maintenance problems when the property is incorporated into the City limits. Additionally, the typical street section proposed is the minimum standard required by the County and in order to determine the proper design for construction, a soil test will be necessary. The Department of Public Works has indicated that the pavement section as proposed will rapidly deteriorate due to adverse weather, and with minimum traffic the pavement will fail at a faster rate.

It is also noted that the developer owns the abutting 193+ acres to Macdona Lacoste Road. Although the developer has no immediate plans to develop said acreage, the potential possibilities are that similar streets would be built.

It is therefore recommended that the plan be denied and that the streets are platted in accordance with City regulations.

Job #024-005-00

FROM: Mark S. Brown

DATE: January 5, 1989

SUBJECT: Planning Commission Approval of Subdivision Plat

Andy Gonzales and I attended the 2:00 p.m. Planning Commission meeting yesterday in which Macdona Heights Unit 2 was on the agenda for approval.

The Commission received a recommendation for approval (with variances) from the Director of Planning and voted unanimously to approve the plat.

Roy Ramos asked me to provide them with an updated copy of the P.O.A.D.P. showing all modifications made during design of Unit 2.

Colonial National Bank Subdivision

December 15, 1988

Mr. Roland Lozano
Director of Planning Department
City of San Antonio
P.O. Box 839966
San Antonio, Texas 78283-3966

Reference: Macdona Heights Unit 2
County Block 4276
Plat No. 890041

Dear Mr. Lozano:

Please consider this letter as my request for a variance to the following sections of the City of San Antonio Unified Development Code:

1. Section 35-4113. (a)(2) Pavement Width
2. Section 35-4114. Curbs
3. Section 35-4119. Street Construction
4. Exhibit A - Sec. A211. Cross-Section Standards
(a), (b) & (c)

Please note that each variance item outlined above was previously approved by the Planning Commission on March 16, 1988 with the official approval by vote of POADP #279.

Copies of all pertinent notices, approvals and minutes are included for your use along with a variance check in the amount of \$80.00. Thank you for your help in reviewing and processing this project.

Sincerely,

Edward L. Pigott, Owner
Macdona Heights Subdivision
